# SVM-1000

---

## HD-HD High quality video recording

The Road is HD-HD (1280X720) and 30 frame per second,  
so it gives clear video quality.

## Cortex A7 dual core CPU

The Road applies Cortex A7 dual core CPU, so it records video clearly by exact image.

## Format free device

Existing SD memory is format every period time for prevent memory error, however format free type is lower memory error.

**Do not miss the recording**

The Road saves image well by per second storage method,  
user can check the all image file when car accident.

## Various parking recording

The Road has motion/event detection at the same time, so user can check the event file for accident before/after.

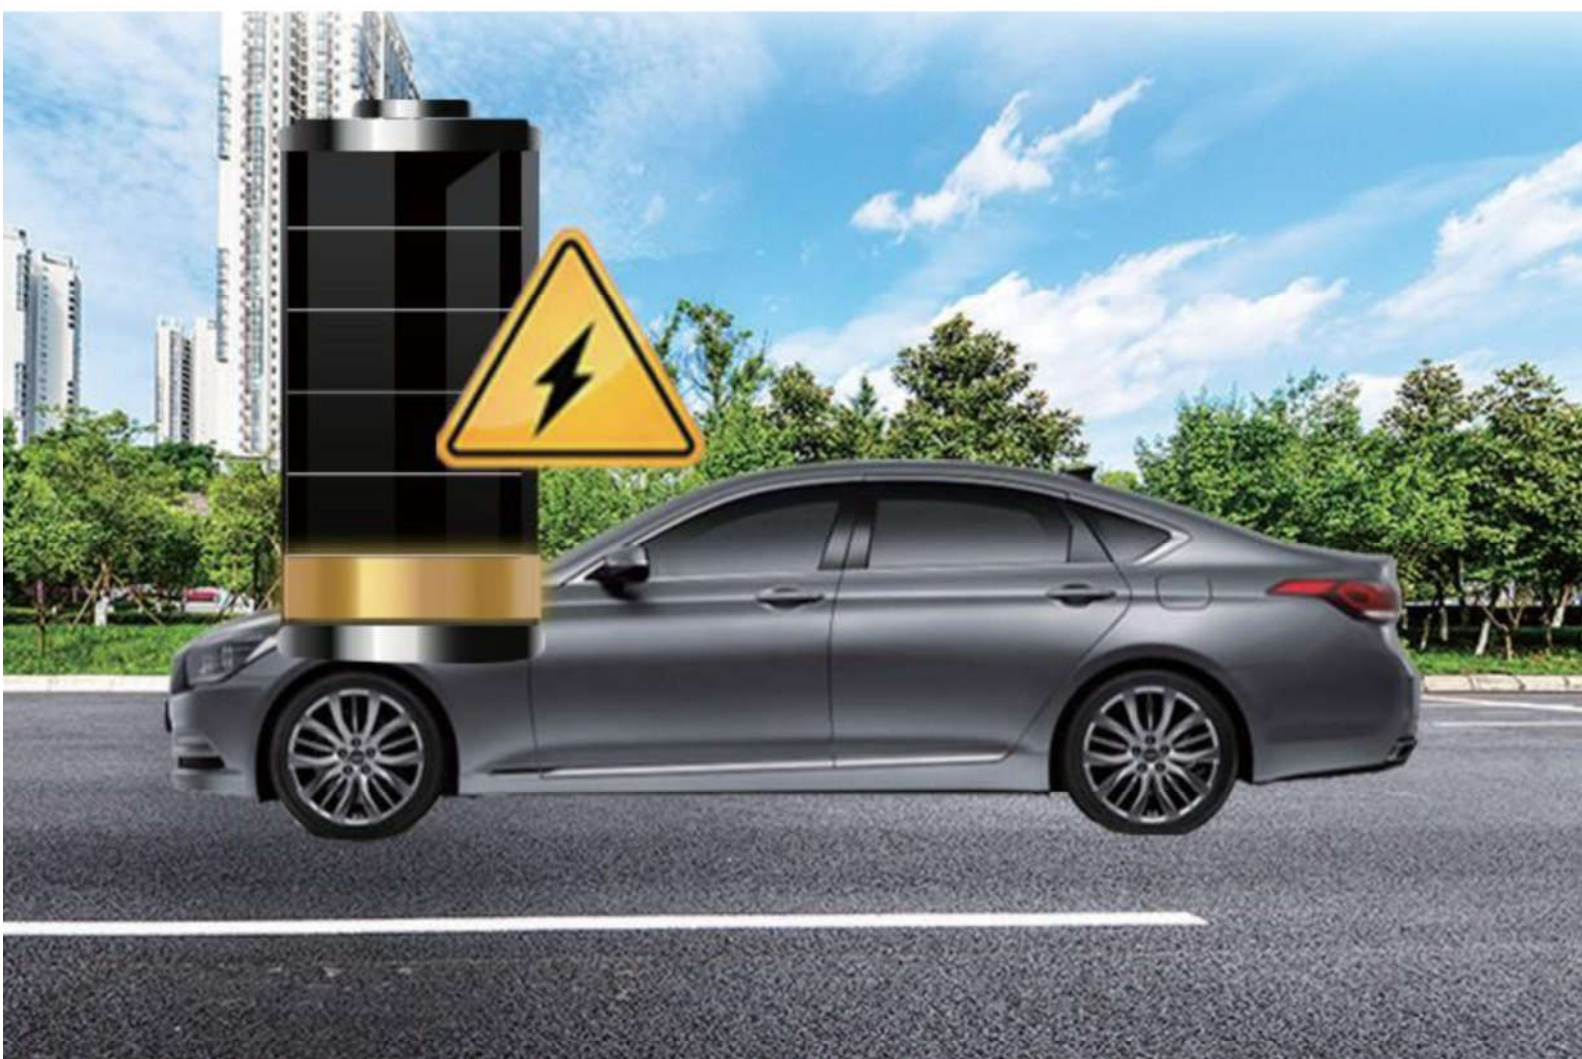

## Parking event notification

The Road gives parking event information with a voice guidance when the device switch from parking mode to driving mode.

## Battery discharge protection system

If the voltage is lower than the set voltage, it executes the voltage cut-off automatically for preventing the car discharging.

## Low-power operation for parking recording

The Road is made of lower-power, so it minimize the power consumption.  
It can works long time when parking mode.

# SVM-1000

---

## High temperature cut-off by smart temperature

The Road is detect the device temperature, so it will turns the device off when temperature is higher than its set temperature.

## Various recording mode

The Road applies various recording mode like normal, event, parking recording, so it can help user to check recording video convenient.

# SVM-1000

---

## 3.5 inch Full touch screen

The Road has 3.5inch Full touch LCD, so enter to the setting menu and recording file is easily.

## Quick and Easy GUI

The Road GUI is comprise of simple, so it can use easily for user.

## Blackbox to the basic

The Road is made of high technology, so it reduce device and detection error.

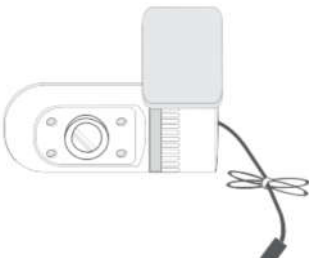

# SVM-1000

---

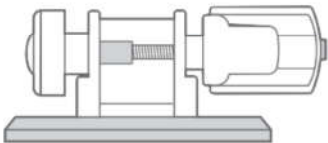

## Components

camera

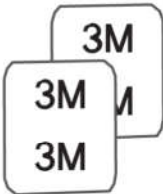

Rear camera (Different from actual product)

Bracket

Micro SD Card

Bracket tape (Black box, Rear camera)

Power cable

## Option

---

GPS

---

# SVM-1000

## Specification

Model Name	SVM-1000 (HD-2CH Mobile DVR)	
Front camera	Image sensor Himax HM1375	Himax HM1375
	Resolution/ Min. Brightness/ Angle	HD / 0.5 LUX / 125° /
Rear camera	Image sensor	Himax HM1375
	Resolution/ Min. Brightness/ Angle	HD / 0.5 LUX / 125°
Recording	Codec	H.264
	Recording mode	Normal, Event, User,
		Parking(Motion detection, Event)
Play	Storage	Micro SD Card( ~64GB)
	Recording resolution	1280X720 (Front), 1280X720 (Rear)
	Frame	Front/Rear 30FPS(Switch to Menu)
Voice recording	Voice recording, Mute	Apply
Voice guidance	Voice guidance	Apply
Port	3 ports	Rear Camera IN, GPS, DC IN
Others	Operated indication	Front Security LED
	GPS	External GPS Module
	Main power cable	Include
	Power	DC 12V~24V (All car type)
	Operated temperature	-20°C~70°C
